

The project aims to motivate students to learn different languages and cultures, to use technology for learning by learning body parts vocabulary in English and teaching the vocabulary in their mother tongue to other partners. The students will work with visual materials, design and describe their monsters and learn songs.

**COUNTRY PARTNERS:**

**TURKEY, GERMANY, GEORGIA, ROMANIA, CZECH REPUBLIC**

# Project Schedule

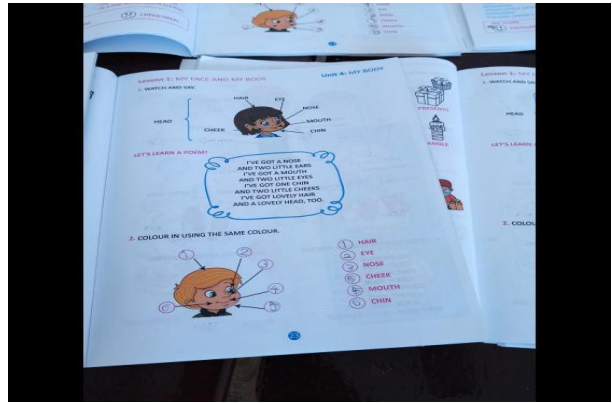

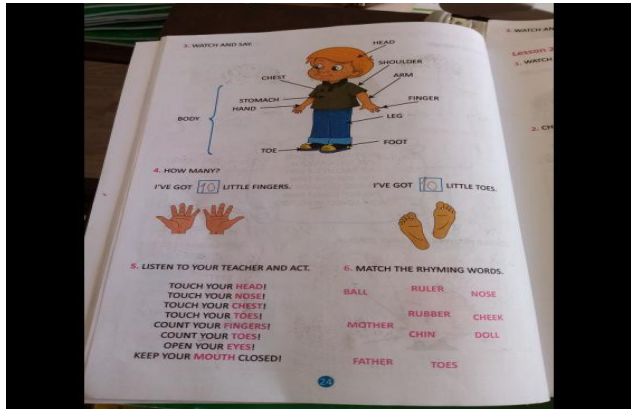

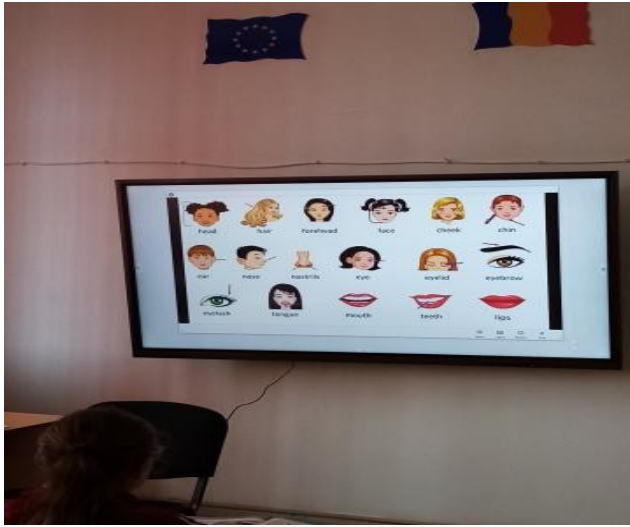

## 1st Week (1st-5th May)

Teach body parts vocabulary to pupils with TPR activities, games, worksheets, songs, drawing and coloring.

Common logo of our project

## Teaching body parts

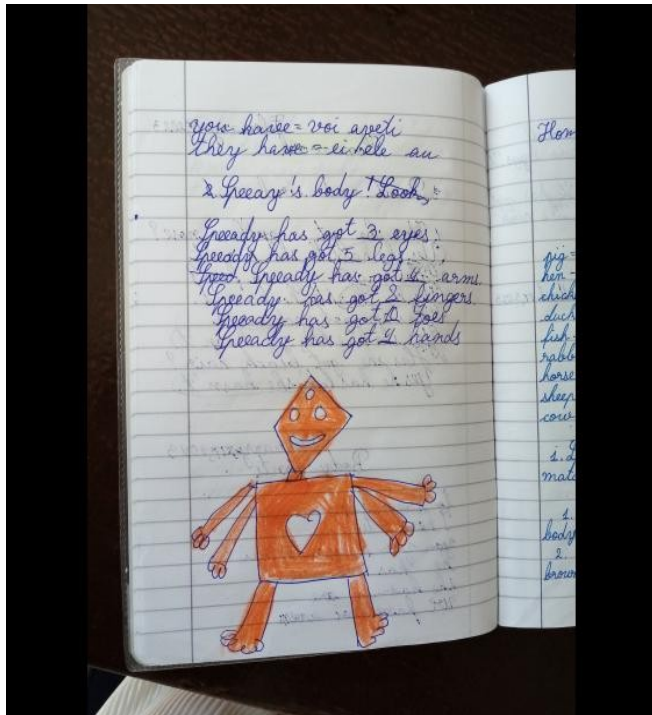

**2nd (8th-12th May)**

Design monsters and share descriptions orally.

Draw monsters according to descriptions and share the description and drawings. Reveal the original drawing and descriptions.

### **3rd Week (15th-19th May)**

Common song

We will write a song and divide it into parts and distribute to partners. Each partner's pupils will sing as a choir and we will combine the recordings as a song by editing.

### **4th Week (22nd-26th May)**

Each partner will prepare a poster with voice recording in their mother language and English. We combine all the posters together and an audio dictionary will be created.
